Winter Weather

It's pretty obvious that this has been a cold winter with July the coldest since 1995. Unfortunately our cruise night dates and Mid Winter Cruise also attracted rain as well as the cold. Not much we can do about it, but it hasn't deterred us from persevering and continuing to host these events at this time of the year if there's continued support from car enthusiasts. And so far we've enjoyed catching up with those hardy souls that come along regardless. Hopefully there's a nice sunny day or evening out there in the coming months. We appreciate your ongoing support.
